

Namaste Parents,

We, the SMIS family, are at the threshold of a new beginning with hopes for a year better than the yesteryear. The last month of the academic year 2018-19 was quite memorable with some up shots like the YPC, in which almost the entire Prep section participated and Trinity GESE, in which about 87 children participated. We also fondly cherish the story-reading event organised at the Lakhota Lake. It was a memorable event for both parents and children, where they spent a refreshing Saturday morning listening to stories narrated and enacted by our very own talented mentors. Curiosity and wonder caused the passersby to gather and enquire as to which school it is that's taking such efforts for their students! Although we were a little disappointed at the poor turnout of parents, we are glad that everyone who came, went back happy and satisfied. We expected all the students and the parents to attend the event and we do hope that, in future, you will show more enthusiasm in attending the school functions.

The pictures of the story reading event and the activities that our children have done as a part of their day-to-day work in school. Also our mentors have penned their thoughts on some of our school practices, all of which will be available for you to [see here](#).

Another proud moment for us is that our Grade-9 student, Trisha Shah's Haiku poem has been published in an international magazine called **Cattalk**. You may use this link <http://www.cattailsjournal.com/issues/cattailsapril2019.pdf> to read the poem. We are sure that more and more of our students will shine like bright stars and bring laurels to the school.

We hope for an exciting new academic year, and wish you all a happy time during the summer vacation. We would suggest you ask your children to record their vacation experiences and endeavours so that they may share them with their mentors and buddies when they are back.
